CAREER OBJECTIVE

Seeking a Software Engineer role in a reputable organization where I can grow professionally, enhance my technical skills, and contribute to innovative and impactful projects while delivering high-quality software solutions.

PROJECT

- **Castle Restaurant** (Restaurant Website)

Castle Restaurant is a full-stack restaurant management web application designed to streamline restaurant operations and enhance the overall customer experience. The system provides a seamless platform for both users and administrators to efficiently manage restaurant services.
The frontend is developed using React.js, along with Bootstrap and CSS, to create a responsive, modern, and user-friendly interface. Customers can browse food products, place orders, book tables, and communicate with the restaurant through a structured contact form. The contact form is implemented using Formik with proper validation to ensure accurate and secure data submission. The information submitted by users is securely transmitted to the admin's email for effective communication and follow-up.

The application includes a dedicated Admin Panel that enables administrators to efficiently manage restaurant operations. Admins can add new products, update existing menu items, delete products, and manage overall menu details. Additionally, administrators can view and manage customer orders, update order status, handle table booking requests, and confirm or reject reservations as required.

The backend is developed using Node.js and Express.js, which handle user authentication, product management, order processing, table booking services, and email integration. The system ensures secure API communication, efficient backend service management, and proper handling of restaurant data to maintain smooth and reliable operations.

Technologies Used: MongoDB, Express.js,Node.js, React.

EDUCATION

MSC CS 2023- 2025
Providence women's college,Calicut

BSC CS 2020- 2023
Lissah college,West kaithapoyil

PLUS TWO 2018- 2020
GHSS,Puthuppadi

SSLC 2016- 2018
GHSS,Puthuppadi

ADDITIONAL COURSE

MERN STACK DEVELOPMENT SEP29- PRESENT
Zonemac Solutions,Calicut
